

# 1800 Citrus Juicer The Gold Standard in Orange Juice

Brought to you by  
**JBT Marel**

# More juice = Bigger profits.

You're seeking fresh-from-the-tree juice that separates you from other retailers. The **Fresh'n Squeeze® 1800** now makes that easy.

It's compact, easy to use, and is designed to turn every orange into more juice. Which leads to bigger profits. Powered by JBT Marel's whole fruit extraction technology, it's why we're proud to be the gold standard in orange juice.

## Get up to 50% more juice from every orange

The Fresh'n Squeeze 1800 squeezes more juice from each piece of fruit than traditional cut-and-press juicers, which means you can buy fewer cases and protect more of your revenue. It's a simple way to cut costs and boost margins.

## Fresh taste your customers will love

No bitterness. No peel taste. Just clean, fresh flavor in every glass. It separates juice from peel and seeds instantly, so every pour tastes pure and delicious.

## Easy to clean, easy to run

With just six removable parts and hose-down cleaning, the 1800 is built for fast cleanup and minimal downtime. Your staff spends less time scrubbing and more time serving.

## Compact design, big performance

The 1800 fits tight spaces without sacrificing output. Whether it's behind the counter or front-of-house, it's designed for hotels, cafes, juice bars, and grocery stores.

## Built to last

Durable and certified for commercial use, the 1800 is ready for high-demand environments. It's a long-term investment in quality and reliability. (No more lost margins)
